

## WIFE AND SON HELD.

Two Charged With Murder of E. G. Glenn, Wealthy Ohio Farmer.

REUBENVILLE, Ohio, November 1.—Charged with the murder of Edward G. Glenn, wealthy farmer of Fernwood,

Jefferson county, Mrs. Mary Glenn, his wife, and William Turner, twenty-one, his stepson, were arrested at Irondale, Mo., Sunday, and are on the way to this city in the custody of county detective Edward Lucas.

The accused wife and son fled from Fernwood shortly after Glenn disappeared more than three months ago. Glenn's remains, which had been buried

in a cornfield, were unearthed by hunters a week ago. The farmer had been murdered and his body tossed into a shallow grave. A shotgun, said by officers to be Turner's, was found near the body.

## RESOURCES GREATER BY \$6,500,000,000

Controller of Currency Shows Increase in Banking Assets Under Reserve Act.

## INTEREST CHARGES LOWER

The financial resources of the bank of the United States have increased six and a half billion dollars since the passage of the federal reserve act. This record is shown in a statement issued by the controller of the currency, who reports it without parallel in the history of this or any other nation.

"This stupendous increase in banking assets and available capital," says the statement, "has been accompanied by an unprecedented quickening which has amounted in many cases to an outburst of business activity in every state and in practically every part of every state. Coincidentally there has been a marked reduction in interest charges."

## Large Excess Noted.

This increase in bank assets, Controller Williams states, is greater than the total resources of all the national banks a little more than ten years ago. The figures given in the statement cover the period from July, 1913, a few months before the federal reserve act was passed, to July last. The period includes nearly all of the first two years of the European war.

In New England the three-year increase has been 31 per cent. In the eastern states 32 per cent increase is noted. There was a 12 per cent increase in the south. In the middle states the increase was 32 per cent. In the west it was 31 per cent.

## Increase in Deposits.

Deposits since the reserve act went into force have made an unprecedented jump also. Their total increase is 31 per cent, nearly as great as the source increase. In New England was 23 per cent; in the east, 30; in the south, 18; in the middle states, 26; in the west, 37, and in the Pacific states, 19.

Banks and trust companies are lending three and a quarter billion dollars more than they were three years ago, the statement says.

## Tendency to Decentralize.

Emphasis is laid upon a distinct and growing tendency toward decentralization and distribution throughout the country of "excessive reserves heretofore piled up in eastern cities." This has been especially true during the last few months. In the four and one-half months from May 1 to September this year deposits in New York city decreased nearly a quarter of a billion dollars, increasing heavily meanwhile in country banks.

All the states of the Union except three show great increases in deposits. The exceptions are Alabama, Mississippi and Oregon. The four states showing the highest percentage of increase in deposits are: Oklahoma, 5 per cent; Arizona, 53 per cent; North Dakota, 22; Wyoming, 48.

## "PASTOR" RUSSELL DIES ABOARD RAILWAY TRAIN

Noted Minister, Editor and Author Is Victim of Heart Disease.

PASTOR CHARLES T. RUSSELL, CANADIAN, Tex., November 1.—Charles Taze Russell, known as "Pastor" Russell, an independent minister, editor of the Watch Tower, and prominent author of studies on the Scriptures, died yesterday afternoon on an Atchison, Topeka and Santa Fe train en route from Los Angeles to New York. Heart disease was given as the cause.

Pastor Russell complained of feeling ill after leaving Los Angeles, his secretary said, and gradually grew worse. The end came while the train was stopped at Tampa, Tex., near here. The body is being sent to Kansas City, Mo.

## Born in Pittsburgh.

Pastor Russell was born in Pittsburgh, Pa., February 16, 1852, and had devoted the last forty years of his life exclusively to religious work. He was at one time a wealthy business man. The greater portion of his fortune he spent freely in the publication of Bible literature.

In 1884 Pastor Russell organized the Watch Tower Bible and Tract Society of Pennsylvania, of which he was president. The work of this non-sectarian religious corporation increased to such an extent that its directors decided to open headquarters in New York city. Mr. Russell and his associates purchased the Brooklyn Tabernacle, formerly Bethel Chapel of Plymouth Church, in 1908, and there Pastor Russell preached on the opening day, in January, 1909.

Society Forms Pulpit Association. Soon after the opening of headquarters in New York city the society organized the People's Pulpit Association. The associations hold title to the property in New York wherein the work of the Watch Tower Bible and Tract Society is done.

It became necessary later to have a European corporation in the interests of the work, which consists of the publication of Bibles, religious books, papers and pamphlets and providing free oral lectures. A corporation was formed under the laws of Great Brit-

ain, with headquarters in London, under the name of the International Bible Students' Association.

In connection with the work of the three religious corporations, Pastor Russell preached numerous sermons throughout this country and England.

## A Unique Figure.

"Pastor" Russell stood for more than a quarter of a century a unique figure among the ministers of all sects and creeds. He belonged to no denomination and attracted widespread attention through his varied activities and methods of publicity.

He was pastor of churches all over the country and traveled nearly 30,000 miles each year in pursuance of his duties, but made his headquarters at his tabernacle in Brooklyn. He always disclaimed being the founder of a new religion and said he based his preaching only on the Bible. In 1914 his sermons were printed in 1,400 newspapers throughout the country. He was the author of a series of books on scripture study, of which, it was said, several hundred thousand copies were printed each year.

## Preached Here Occasionally.

Pastor Russell delivered many lectures before the Washington branch of the International Bible Students' Association, an organization which he founded. Advocating a religion of such breadth as to include all Protestants, he was persistently opposed in his interpretation of the Bible by denominational prelates.

Owing to the countrywide field of his work, Pastor Russell preached in Washington only occasionally. His followers in this city, under the leadership of local pastors, have met regularly in the new and old Masonic temples, and on each occasion of his visits here he was greeted by large audiences.

No details as to where the funeral will be held that reached the heads of the local organization today, but it was announced that a delegation would attend the ceremonies.

## SLINGSBY CASE POSTPONED.

Appeal Before British House of Lords Involves \$500,000.

LONDON, November 1.—The house of lords yesterday granted postponement until December 1 of the hearing of the appeal of the Slingsby legitimacy case from the judgment of the court of appeals. The application for postponement was made on the ground that the appellant is not in possession of the necessary funds to prosecute the appeal.

The Slingsby case involves the question whether an infant born in San Francisco and declared to be the child of Charles K. Slingsby and his wife Dorothy is the rightful successor of the Slingsby estate in England. A California court ruled the child was a legitimate heir and the court in England upheld that decision. The court of appeals, however, reversed his ruling in a decision handed down last March. It sustained the contention of Charles Slingsby's brothers, who introduced evidence to show that eddy Slingsby was not the child of Charles and Dorothy Slingsby, but was claimed by them after an advertisement had been inserted in a San Francisco paper for a newborn male infant. The Slingsby property in Yorkshire is valued at about \$500,000.
